Internship

Web Development Intern

Apr 2024 - Jul 2024

SESA / National Government Organization / Jharkhand

- Created **10+ responsive web pages** using **HTML, CSS, JavaScript**, and **React.js** to improve accessibility and usability
- Enhanced frontend layouts and implemented modern **UI components** across 10+ web pages, improving navigation consistency and user experience
- Optimized **React component rendering** and reduced redundant **API calls**, improving frontend responsiveness and performance
- Collaborated with cross-functional teams throughout the **software development lifecycle** to deliver features on time and maintain code quality

Projects

Bhasha-Verify | AI-Powered Scam Detection Platform | [Live Demo](#)

Apr 2026

- Built a full-stack application using **PHP (MVC)** and **React** for real-time detection of phishing and social engineering threats
- Engineered a multi-layer pipeline combining heuristic rules (regex), **LLM-based semantic analysis**, and **RAG-based verification**
- Integrated **LLM APIs** to analyze intent, urgency, and sensitive data patterns across **multilingual** inputs
- Formulated a weighted trust scoring system for **explainable risk assessment** and reduced false positives
- Implemented **WhatsApp-based scam detection using Twilio API** for real-time message verification
- GitHub Repository Link: <https://github.com/AyushVishwakarma-CodeHub/Bhasha-Verify>

CampusBite | A Smart Meal Pre-Booking System for Campus Students | [Live Demo](#)

Feb 2026 – Mar 2026

- Developed a full-stack **MERN application** for meal pre-booking with secure **JWT-based authentication** and **RBAC**
- Architected **RESTful APIs** for order lifecycle, cart management, and outlet-specific data isolation
- Optimized **MongoDB schema design and queries**, improving data retrieval efficiency and system scalability
- Engineered a high-performance React frontend using **Context API** and **Vite** in a modular architecture
- Integrated **ML-based demand prediction (TensorFlow, Scikit-learn)** to optimize inventory and reduce wastage
- GitHub Repository Link: <https://github.com/AyushVishwakarma-CodeHub/CampusBite>

Certificates

Microsoft Foundations of AI & Machine Learning - [Coursera](#)

Feb 2026

Google AI Agents Intensive Course - [Kaggle](#)

Dec 2025

Achievements

2 Patents Filed (Currently Under Government Review)

Mar 2026

- Patent 1: A Fabric-Integrated Micro-Capillary Haptic Interface for Wearable Technology
- Patent 2: An Intelligent and Smart Automation Bag

Gear Up Season 4

Sept 2025

- Won a 36-hour innovation hackathon at LPU

Extracurricular Activities

- Performed in a theatre production at “Sur Tal Rangmanch” at LPU
- Demonstrated confidence and presentation skills through modeling activities

Oct 2025

Oct 2025

Skills

Languages: C++, Java, JavaScript, PHP, Python

Frontend: HTML5, CSS3, Bootstrap, React.js, Next.js

Backend: Node.js, Express.js, REST APIs, MVC Architecture, JWT Authentication

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Tools & Platforms: Git, GitHub, Postman, Linux, VS Code, MongoDB Atlas, Vercel, Render

Core CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Core Skills: Full Stack Development (MERN Stack), API Integration, Problem-Solving, Responsive Web Design

Soft Skills: Communication, Team Collaboration, Analytical Thinking, Adaptability, Leadership

Education

Lovely Professional University

2025 – Present

Master of Computer Applications – CGPA: 8.96

Jalandhar, Punjab

G.L.A College, Medininagar

2021 – 2025

Bachelor of Science in Computer Applications – Percentage: 74.17%

Daltonganj, Jharkhand

Elite Public School

2018 – 2019

12th with Science – Percentage: 63.20%

Daltonganj, Jharkhand

Bright Land School

2017 – 2018

10th – Percentage: 78.40%

Daltonganj, Jharkhand
